ABOUT US

At How to ABA, we help ABA professionals feel supported and confident by providing easy to access printables, CEU's and programs so you can master what you love!

Shayna and Shira are both BCBA's who are passionate about spreading the positivity of Applied Behaviour Analysis! We know how busy life can get and how overwhelming it can be to take care of ourselves and the families we service. There is no need to reinvent the wheel with each new client - we've been there! Let us hold the light to help guide you along the way!

As BCBA's, the quality of our services depends on the quality of our output. It is difficult to have quality output when there are so many other things to do in a day!

That's why we developed these fully editable task analyses for you. This package includes both viewable pdf's and fully editable MS Word templates in these areas: bathroom & grooming, showering & bathing, brushing teeth, dressing, home skills, recipes, and shopping.

Use these as you see fit and LET US MAKE YOU LOOK GOOD!

Thank you so much for all of these resources and programs. I have saved so much time on program development

INSTRUCTIONS FOR USE

Click on link and download content to your personal google drive or computer.

Individualize each program to your learner. Have your team to review the steps in the task analysis and edit as necessary.

Check the zip file to make sure that all files downloaded correctly and that you are able to open the files.

Come back to How to ABA for more content to make you look like a rockstar at work!

Once downloaded, use this resource over and over again.

RULES AND COPYRIGHT

The resources within the downloads are copyrighted by How to ABA. It is designed for single practitioner use only. Please feel free to direct those who would like access to our data sheets and trainings to our e-store.

Program Downloads:

With our program descriptions, data sheets and other downloads, you CAN:

- Print and use for your clients that you're directly overseeing
- Send a copy to your RBT or other team member
- Edit the downloads and individualize them for your client
- Put your logo on edited data sheets
- Refer professionals to The Bx Resource so they can download and use for their clients
- Use resources for training your staff
- Reference How to ABA in using resources for training other staff

With access to the purchases and downloads, you CANNOT:

- Share with other BCBA's for their use with individual clients
- Post electronically to a website or shared virtual library without permission
- Distribute How to ABA editable materials to non-members
